- ✓ Core PHP with MVC or 3 tier architecture
- ✓ Extensions
- ✓ Frameworks
- ✓ OOPs

- ✓ Table Views
- ✓ Triggers
- ✓ Stored Procedures
- ✓ Table Functions
- ✓ Auto Backups

- ✓ UI
- ✓ Javascript
- ✓ Ajax
- ✓ More user initiative
- ✓ Self explanatory
- ✓ CSS Objects

- ✓ AWS RDS
- ✓ AWS EC2
- ✓ AWS S3
- ✓ AWS Cloud Front
- ✓ AWS Route 53

We are highly skilled with core php and are focused to develop web based business solutions, web portals, SaaS model solutions and cloud based solutions

We use majority of the features of MySQL. And we prioritize to keep design the structure in such a way that it provides more flexible and scalability

We have our own set of HTML & CSS controls & we can change the presentation of UI's through our HTML/CSS framework. It is highly customizable in a minimum time

We have mastered certain AWS cloud services, through its successful and stable implementation. We also help in architecture designing and cost reduction of cloud services

ACTIVITY STREAM

With lots of active & pro-active communication features.

EDUCATION MANAGEMENT SYSTEM (EMS)

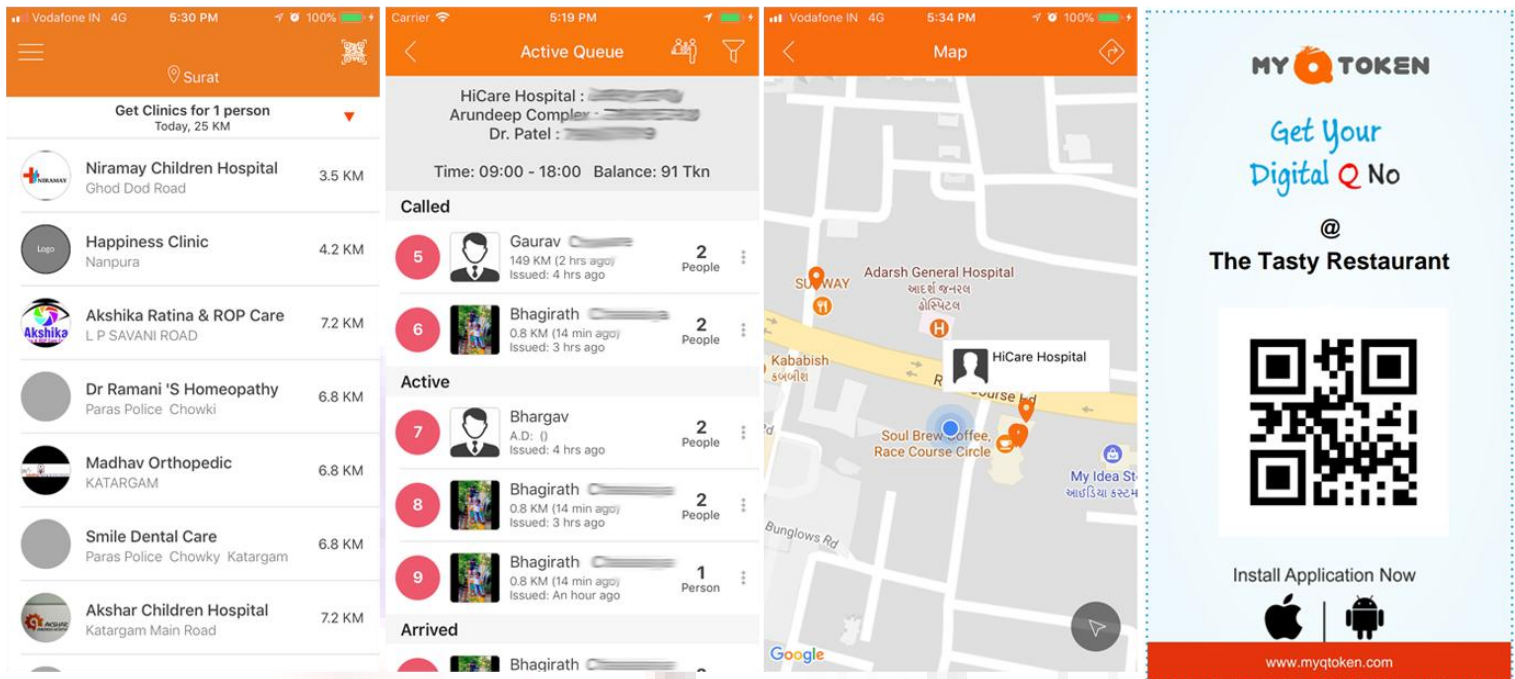

It has facilities for student management, course management, fees management, schedule management and student portal too.

Above the listed portfolio is for just two of our projects and both the projects had their own challenges and achievements. Besides this we are also highly skilled in survey project management solutions and we own a portal for it (<http://surveybackoffice.com>). Besides business applications we have also developed some CMS and e-Commerce solutions too. But at present we are more focused on customized development of business applications. We have also mobile applications and below are the details for the same.

DIGITAL WAITING QUEUE SOLUTION

This is a digital waiting token solution. Besides digital tokens, it has many facilities for vendors, queue managers, users and their companions. Major features were, User distance from destination, companion token sharing and distance details, auto queue management and token packaging.

The above described portfolio is just technical besides that we are highly skilled with business logic and gathering the requirements & understanding the problems and providing the most appropriate and long life solution. We have a strong communication channel and project management tool, to serve our clients with best possible services. Our ethics and values are such that our clients have never complained about dis-satisfaction. We are dedicated for our clients success with joy. Once given a change we are sure that we will make you happy too. For more details you can visit our website <http://braininfotech.com> and for detailed portfolio you can visit <http://braininfotech.com/portfolio/>
